

To my great good fortune, Greg was highly recommended to me as a handyman a few years ago. He is absolutely the perfect handyman! Always punctual, he his knowledgeable, professional, tidy, pleasant and thorough. Greg always has helpful suggestions to keep me within my budget, but achieve the results I want.

Greg has installed complicated light fixtures, put up shelves, painted, worked on my eavestroughs, gutted and sealed my leaking pantry, hung pictures, worked on my kitchen cabinets, and more - and always at a reasonable price with no surprises. Greg is completely trustworthy, and I am comfortable leaving Greg to do the jobs while I am away at work. Recently, my water softener quit working, and so I called Greg. He gave me invaluable advice and even helped me find a great sale price! He offered to disconnect and remove my old unit - but pointed out I could save by arranging for the city to pick up the old unit. From disconnecting the old one to delivering and installing the new water softener, Greg has helped me every step of the way.

If you are looking for a handyman, call Greg. You will be so glad you did!
