

Jean
Highland Creek

Over the last four years Greg has help me with decorating two homes. Firstly in my former home he redecorated the entire basement updating it from an "80" style to colours of textures of present day and laid a laminate floor. Because I knew that Greg was honest and trustworthy I was able to leave him to do the work during the day while I was at work. He also worked on the grading of the outside of my house to protect the basement.

In my present home Greg has painted the whole house, installed all the appliances plus a new vanity in the powder room. As my home is new, the basement was unfinished. Greg framed, drywalled and painted the entire basement. He also installed a drop ceiling and laminate flooring. Last fall he built a deck and this summer he helped design and lay interlocking brick in the backyard and front garden and installed an awning for me too. During all the work that has been done on my present house I have been able to trust Greg with a key to the house knowing that he will be respectful of my property and reliable to get the job done. Greg's work is of the highest quality and standard and it looks fantastic.

I have recommended Greg to friends and neighbours who have been impressed with the quality and high standard of his work in my home. Greg is friendly and easy to work with and I know you will be pleased with his work if you hire him.
